II. MINING AND RECLAMATION

1. Was the mine active during the past year? Yes ☐ No ☒

(Less than 20 tons removed) -- Mostly for R & D,
No sale of product as of this date

2. If active, how much ore or mineral was mined? _____

3. Briefly describe any new or additional surface disturbances that occurred during the past year. This description should include the type of work performed, volume of material moved, and the acreage affected.

Overburden has removed from approximately 1½ to 2 acres
in preparation for mining the product. This work was done
the last part of 1990.

4. Briefly describe the reclamation work performed during the past year. This description should include acreage reclaimed, methods employed, and an evaluation of the results.

No reclamation of the property has
been completed as of this date.

5. What was the total unreclaimed acreage at years end? Less than 3 acres

6. Briefly summarize mining and reclamation planned for the upcoming year.

The amount of mining will depend on the sales for

finished product; at this time we have no way of

knowing the amount of product to be mined.

NOTE: Section III., "Additional Information" applies only to large mining operations.

III. ADDITIONAL INFORMATION

1. An updated surface facilities map should be attached if there have been significant changes since the previous map was submitted.
2. Any monitoring results or other reports that are required under the terms of the approved notice of intention should also be attached.
